Sharing Music that Speaks to the Soul

*Amy's music is used throughout the country in
cancer centers, hospitals, and hospices as well
as for general relaxation and stress reduction.*

Research with Amy's Music

- * Fifty (50) 2-part questionnaires were sent out and 100% of the participants responded that they were more relaxed after listening to the music.
- * A Quantitative EEG brainwave study showed that the "New Love-awaken to yourself" CD induced a state of relaxation in 4 minutes by increasing alpha wave and decreasing beta wave frequencies in the brain.
- * A Quantitative EEG brainwave study showed that "The Magic Mirror" CD tended to normalize neurological functioning in cancer patients receiving chemotherapy treatment after listening to the music once a day for 10 days.
- * An additional saliva sample study using "The Magic Mirror" CD indicated the music had a sustained impact on immune system biomarkers for up to 72 hours in healthy individuals.
