Speakers:

Amy Camie, CTM-CCM

Known as “The Healing Harpist,” Amy is a Certified Therapeutic Clinical Musician, TEDx speaker, recording artist, author, educator, and 2 times breast cancer thriver.

Amy is a trauma-Informed Leader certified in Intercultural Creativity® and she recognizes the potential opportunity for learning in every encounter. Amy encourages audiences to open their mind, expand perceptions, and increase self-awareness to create a deeper sense of connection within and around them. Her music is used throughout the country in hospitals, cancer centers and hospices, as well as for general relaxation and stress reduction. As a pioneer in the field of harp therapy, Amy has co-authored two clinical trials and several pilot studies exploring how her solo harp music increases brainwave function, supports the immune system, and reduces pain and anxiety. Her inspired music relaxes the body, calms the mind, and gently touches the soul. As one recipient describes Amy, “You touch others in such a deep place with your music because it comes from such a deep place inside of you.”
